INFORMATION GUIDE
 A Place for Enjoying Science

Electricity Museum

Make Great Discoveries!

4F

- Restroom
- Elevator
- Escalator
- Nursing Room
- Lockers (free)
- Emergency Exit
- Stroller Parking
- Vending Machine
- Rest Space

History Room 4F

Documents related to the electric power industry are on display in the History Room.

Forest of Learning 4F

Here, you connect with nature by learning about the roles of forests and the wonders of animals. You can also learn how humans and forests support each other.

The Land of Scientific Mysteries 4F

Experience various science exhibits that will have you doubting your eyes and senses.

Environment and Energy 3F

This hall is divided into three areas, the environment, energy resources and electricity generation. Here, you will learn about energy and environment related problems.

Voyage of Electricity 3F

In this area, learn how electricity is produced at power plants and then transported for use in homes and businesses.

Science Plaza 2F

Participate in fun static electricity and science experiments while learning about how amazing science is.

Pioneers in Electricity 2F

Meet scientists like Thomas Edison and Alessandro Volta who contributed to the discovery and development of electricity.

Orientation Room (B1)

Special groups visiting the museum may use this space for meals.
